AlloWrap DS

Amniotic Membrane

Amniotic membranes are harvested from a growth factor rich environment. They are commonly used in a variety of applications, including wound coverage, as a barrier and for nerve or tendon protection.¹

Dual layer

- The double-sided membrane features 2 layers of amniotic tissue, oriented with the epithelial layers facing outward.
- This processing allows for omni-directional implantation

Ease of use

- No product preparation is required
- Product is 0.1–0.2mm thick
- Room temperature storage
- Terminally sterilized 10⁻⁶
