Simplify Processes

We've simplified processes for physicians and staff members to increase their level of performance and satisfaction.

+ Automated Inventory Management

Automated Inventory Management uses RFID technology to reduce labor costs and enhance stocking process accuracy, allowing physicians and staff to work intelligently.

+ Intuitive Product Labeling

Intuitive product labeling streamlines the process for ordering, stocking and replenishing inventory.

+ Simplified Contracts

Simplified contracts process addresses the unique needs of your facility.

Increase Efficiency

Our distribution model and sterile packaged implant offering are designed to make your facility's operations more efficient so staff can spend less time managing logistics and more time focusing on patient care.

+ Sterile Packaged Implants

Implants are sterile packaged to reduce the sterilization burden for cases and the chance of infection ¹⁻².

+ Streamlined Instrument Sets

Dedicated and optimized instrument sets help ensure availability, reduce case scheduling activities and enable more flexible sterilization workflows.

Improve Profitability

Our solution's competitive pricing structure and operational efficiencies help reduce your operating expenditures.

+ Competitive Pricing Structures

Our innovative implant and delivery model is intended to reduce pricing levels and provide greater operational efficiencies.

+ Customized Service Model

Customized service model provides support from local, experienced professionals based on needs.

Manufactured by Stryker

A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery. The information presented is intended to demonstrate the breadth of Stryker product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your Stryker representative if you have questions about the availability of Stryker products in your area.

Stryker or its divisions or other corporate affiliated entities own, use or have applied for the following trademarks or service marks: Ascential, Stryker. All other trademarks are trademarks of their respective owners or holders.
